

Local Rule 6 - Secondary Criteria for Initial Coordination

Adopted by LGW Coordination Committee: 07 December 2023

Definitions

WASG Worldwide Airport Slots Guidelines effective on the day the slot is allocated.

1 Introduction

Local Rule 6 has been written to address the situation at Gatwick Airport whereby airlines operate non-historic slots in a season due to the lack of availability of slots in the Baseline and to give these airlines that are willing to take this operational risk, consideration under secondary criteria for historic allocation in the next season.

2 Additional Allocation Criteria applicable at LGW

Local Rule 6 adds the following criteria to “Additional Criteria for Initial Slot Allocation” of the WASG applicable at Gatwick only.

Non-Historic Operations: Coordinators should give consideration to those carriers that operated a series of slots in the previous equivalent season on a non-historic basis, should they apply for the same slot in the next equivalent season.
